

Capability Statement

COMPANY OVERVIEW

Beyond the Magic Consulting (BTM) is a **performance architecture firm**. We do not train culture — we architect it. BTM designs and installs the operating systems that make high-quality performance **consistent, measurable, and scalable** across an organization, closing the gap between intention and execution. BTM specializes in strengthening **leadership effectiveness, workforce capability, organizational culture, customer experience, and operational execution** — then transferring that capability so results endure after we depart.

CORE COMPETENCIES

- **Leadership Development & Executive Coaching** — so strategy is lived consistently
- **Customer Experience & Service Excellence** — consistent service at every touchpoint
- **Learning & Development / Curriculum Design** — scaling standards through capability

- **Organizational Culture & Experience Design** — making culture observable and operational
- **Facilitation & Strategic Planning** — aligning groups and driving decisions
- **Change Management** — driving adoption with less friction
